

**Modeling Collaborative Interprofessional Education of
Mental Health in Primary Care**

Leslie Flynn
Psychiatrist, Associate Professor, Associate Dean Postgraduate Medical Education

Bethmarie Michalska
Psychological Associate, Assistant Professor

Han Han
Research Associate, Ph.D.

Linda Beckett
Family Physician, Assistant Professor

Sangeeta Gupta
Occupational Therapist, Clinical Supervisor

10th National Conference on Collaborative Mental Health Care
Hamilton, Ontario
May 29, 2009

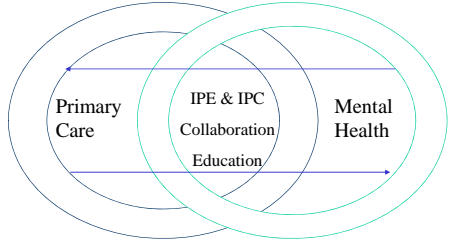

Objectives

- ❖ To introduce interprofessional collaboration within the Shared Care Team and the transformation of mental health practice
- ❖ To describe the collaboration with a family physician within the Collaborative Interprofessional Team (CIT)
- ❖ To introduce CIT's collaboration with Family Medicine residents on interprofessional education

CIT's Dual Collaborative Model

The diagram consists of two overlapping circles. The left circle is labeled 'Primary Care' and the right circle is labeled 'Mental Health'. The overlapping area in the center is labeled 'IPE & IPC Collaboration Education'. There are blue arrows pointing from the Primary Care circle to the intersection and from the intersection to the Mental Health circle.

 
Collaboration within the Mental Health Professionals in HDH

Interpersonal Psychotherapy (IPT) Training, 2001

- ❖ *Integrated group supervision: a group of multiple mental health professionals supervised by an IPT expert through teleconferencing*
- ❖ *Interprofessional team learning: Learned about each other's skill sets and professional roles; developed open communication, trust, and support*

 **From IPT to Shared Care Team**

Learning with, from, about

 **Interprofessional Learning** 

Collaboration with Family Medicine

PGY3 Program

In 2003, an innovative educational program was initiated in mental health care for a 3rd year Family Medicine resident, supervised by all members of the team.
